## PROFESSIONAL EXPERIENCE

---

### INFOSYS LTD.

#### Specialist Programmer

Pune, India

FEB 2023 - Present

Actively contributing as a Specialist Programmer at Infosys, I am actively involved in an airline project that leverages Java Spring Boot microservices. Enhancing my understanding of microservices architecture and enhancing my skills in Java and Spring Boot, leading to a 25% increase in project delivery speed.

- Pioneered the integration of Apache Kafka and elastic search into the existing technology stack, resulting in a 30% reduction in data retrieval time and enabling real-time insights for decision-making processes.
- Executed Spring Integration framework for effective communication across microservices architecture, utilizing transformers and filters. This resulted in a 25% improvement in inter-service communication efficiency and a 30% reduction in data processing time.
- Exhibiting expertise in building robust and scalable APIs using Spring Boot technologies, contributing to a 20% reduction in development time and a 15% improvement in API performance.
- Confirmed proper business exception handling, leading to a 20% reduction in system downtime due to unhandled exceptions.

### COGNIZANT TECHNOLOGY SOLUTIONS INDIA PRIVATE LTD.

#### Programmer Analyst

Pune (Remote), India

AUG 2021 - Nov 2022

Kickstarted my career at Cognizant as an Infrastructure Developer, specializing in ServiceNow, leading to a 20% improvement in service management processes and a 25% enhancement in a healthcare project's outcomes.

- Guided incident and change management processes, ensuring seamless resolution of critical issues and minimizing downtime, resulting in a 40% reduction in system outages and a 25% improvement in change success rate.
- Played a key role in weekly enhancements, leading to a 20% improvement in system performance and user satisfaction.
- established a service request fulfillment system, reducing resolution time by 50% and achieving a customer satisfaction rating of 95%.

## EDUCATION

---
